ATTEMPTED ROYAL MURDERS.

There have been twenty-eight attempts on the lives of royal personages and rulers during the last thirty years. The Duke of Modena, attacked in 1848; the Prince of Prussia (now the Emperor William), at Minden, in June, 1848; the late King of Prussia, in 1852; Queen Victoria (by an ex-lieutenant), in 1852; an internal machine discovered at Marseilles on Napoleon III's visit in 1853; the Austrian Emperor slightly wounded by the Hungarian, Libenyz, in 1853; attack on King Victor Emanuel in 1853; also on Napoleon III, opposite the Opera Comique; the Duke of Parma mortally stabbed in 1854; Napoleon III fired at by Piacenti in the Champs Elysees in 1855; a policeman seized Puentes when about to fire at Queen Isabella in 1856; Milord of Naples in 1856; three Italians from London convicted of conspiracy against Napoleon III in 1857; the Orani plot against Napoleon III, in 1858; King of Prussia twice fired at but not hit, by the student, Beker, at Baden, in 1861; Queen of Greece shot at by the student Brados in 1862; three Italians from London arrested for conspiracy against Napoleon III, in 1862; President Lincoln assassinated in 1865; the Czar attacked at St Petersburg in 1866 and at Paris in 1867; Prince Michael of Servia assassinated in 1868; King Amadeus of Spain attacked in 1871; President of Peru assassinated in 1872; President of Bolivia in 1873; President of Ecuador in 1875; President of Paraguay in 1877, and two attempts on the life of the German Emperor 1878.

The spectacle of a man sailing around in the air, at will, was enjoyed last week by the residents of Hartford. Whether this air ship will stand the test of further experiments remains to be seen, but enough is already developed to prove that the principle upon which it is constructed is worthy of examination. In this instance the operator was able to elevate himself to a height of one hundred feet, and sail away an eighth of a mile with the wind, and then return to his starting point against it. This was certainly a successful test. We may yet get a machine that will solve the long-voiced problem of air navigation.

In a late conversation with a reporter, Christian K. Ross said \$80,000 had been spent in searching for his lost son, Charley. He is now poor, and has just received the appointment of Master Warden of the Port of Philadelphia, with a salary of \$2,500 a year. He says he has not abandoned the hope of finding his son.

HENRY A. PARR has been arrested in Boston on a charge of murder. Parr was one of the seventeen passengers who took possession of the steamer Chesapeake (from New York to Portland December 5, 1863,) in the name of the Confederacy, shooting the second engineer and throwing his body overboard.

The body of a member of a Hibernian society has been exhumed from the Catholic cemetery in Cleveland. Bishop Gilmore, of that diocese, says: "We shall not allow persons to be buried in the cemetery who belong to secret societies. The laws of the church fix that. No man can be buried in consecrated ground who is not a member of the church and a partaker of the sacrament. If a man joins a secret society, he knows that by this act he severs the connection between himself and the church."

How Women Hide Their Money.
The curious ways that women have of hiding their money are shown by the Cincinnati Commercial. That paper says: "Mrs. Han-son put \$50 in the oven of her stove one night to keep it safe. Next morning after breakfast the national debt had been diminished exactly that much. A student of the curious would find it interesting to note the places in which women hide their money. One excellent and frugal dame used to tuck her little savings away under a corner of the carpet. The tiny roll of greenbacks grew fatter and fatter in the course of a year or two, when this day after it counted \$250 the house took fire, burned to the ground, and again the National debt was diminished by a little roll of woman's money. There was that other careful lady, too, who used sometimes to hide her diamond rings between two tea cups in the kitchen cupboard, sometimes behind a certain brick in the collar, and again under the lining of an old hat. She had divers other places of safety for her jewelry also, the only trouble being that she had so many hiding places she occasionally forgot where she last put her precious things, and about every three months would fancy she had been robbed, and the house would be turned inside out and all therein be made uncomfortable, until the missing gems would be found tucked away in the folds of the bottom towel of the pile in the left hand corner of the lower drawer in the clothes-press at the east end of the drawing room.

While Colonel A. H. Falkerson, of Rose Hill, near Lynchburg, Virginia, was riding over his farm on the morning of the 5th instant, he was attacked by about eighty or one hundred swallows. The little birds with great chattering, surrounded him and pecked at his clothing. He was at first amused, but after a short while they began striking their beaks in his face and neck, and he barely escaped with his life. It is feared that he will lose the sight of both eyes, and his nose was so mutilated that in all probability it will have to be amputated.

John Glazebro, the carriage maker of Burlington, Iowa, recently overhauled a family carriage that was built when Noah was playing marbles. The steps left down in an winding, furrowed series, until they reach the ground. Glazebro has saved them and is going to fasten them to the cornice of his manufactory, for a fire escape.

On the day that Barnum's circus performed a while ago at Meriden, Connecticut, six monkeys escaped from his menagerie, and only one of them has been caught. A malicious paragraphist says the other five are starting greenback newspapers up and down the country.

The Nicoloff Vastrik, a leading paper of Southern Russia, is a daily, but a regular time for publication is considered impracticable. Sometimes it is issued in the morning, then in the evening; at other times it appears without a single copy appearing.

THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL Have a combined circulation larger than that of any other journal of Nevada, excepting those of the Comstock.

NEWS OF THE MORNING.

Mrs. Williamson was burned to death in a fire at Dayton, Nev., yesterday.

W. H. Root has been appointed Postmaster at Mountain City, Elko county, Nev.

Warren Leland Sr., has retired from the management of the Palace Hotel, San Francisco.

The citizens of John Day Valley, Oregon, have had a brush with the Indians. Arms and men are asked to protect the settlers.

The authorities of St. Louis have had a serious conflict about an engine house. Two or three officers were killed and several wounded.

Butler thinks that if O'Connell's testimony before the Potter Committee can be substantiated there will be ground enough to impeach Hayes.

The troops in the Indian war country are to be fully equipped and the regiments fully manned. The entire army is to be placed on a war footing.

Policemen are guarding Ten Broeck and Mollie McCarthy day and night. Many Californians are arriving in Louisville. Both horses are in superb condition.

ANNIVERSARIES being all the rage on this side of the water Italy intends to have a big one next year on the other side. That country can reach somewhat further back into the dim ages of the past than America. They intend to celebrate the 1800th anniversary of the destruction of Herculaneum and Pompeii, and the festival will be held in the latter city. The Italians are no doubt an exceedingly humorous people, but still it may tax their sense of the ludicrous to get much fun out of the destruction of a couple of cities, even if such a long time has elapsed since that comic event.

THE project of draining the Zuyder Zee for the purpose of reclaiming land for agricultural purposes, has stimulated the civil engineers to make some curious estimates in connection with the enterprise. A dam twenty four and three quarter miles long is to be carried across the gulf, and upon it engines are to pump 1,716,000,000 gallons a day. Six years will be consumed in emptying the enclosure. The area is 500,000 acres, and the estimated cost of draining is \$67,000,000. The engineers are confident that 430,000 will be suitable for agriculture. The price for an acre will average \$800.

GEN. SPINNER, he of the terrific and awe inspiring autograph, works ten hours a day like a Trojan, in Florida, and cultivates any kind of plant that will grow there. He is at present experimenting in olive and tea plants. The General likes the Southern people.

CALEB CUSHING has received a fee of over \$100,000 for recovering the estate of a Cuban which was seized by the Spanish Government.

DON AUGUSTINE EDWARDS, a Yankee who has just died in Chili, left a fortune of \$25,000,000. He had a monopoly of the copper mines in that country.

It is computed that the tomb of St. Charles Borromeo, in the Cathedral at Milan, contains in precious stones alone value to the amount of a million dollars.

BOENIA has notified the Congress that she objects to Austrian occupation, and intimates that she would prefer occupation of the country by Serbian troops.

THE Governor of Missouri has signed a bounty bill, offering five cents each for rat scalps.

THE Shah of Persia, with a suit of fifty persons, was content with twenty-four rooms at the Grand Hotel in Paris.

DEMOCRATIC STATE CENTRAL COMMITTEE.

This body met Saturday in Virginia City, J. O. Currie in the chair and J. H. Graham was appointed Secretary.

Carson, Eureka and Winnemucca were contestants as places for holding the State Convention, the vote standing, Winnemucca 3, Eureka 4, and Carson 8—another case of 8 to 7, Carson winning by just one vote.

The State Convention will be held on September 22, 1878, the primaries to be held on the 7th of the same month.

The apportionment of delegates is as follows: Churchill 2, Douglas 5, Elko 11, Esmeralda 2, Eureka 13, Humboldt 8, Lander 8, Lincoln 7, Lyon 6, Nye 7, Ormsby 8, Storey 35, Washoe 10, White Pine 9.

THE S. F. Post declares that "the estimate placed by General Grant upon the ability of Senator John P. Jones as a statesman is the disinterested testimony of a President who had a good opportunity of judging whereof he spoke. While, of course, it is extremely pleasant to the friends of the Nevada Senator for him to be thus held in high esteem by so eminent authority, still no expression of friendship is particularly needed to increase the high regard in which he is held by his constituency. From both Republicans and Democrats in all parts of Nevada comes up approving testimony to his fidelity, integrity and statesmanship. If he shall decide to again accept the office, it will be no trouble for him to secure the Senatorship by almost unanimous choice."

A ROUGH CAMP—The little town of Grantsville, in Nye county, must be a pretty tough little place judging from what outsiders say. The Austin Reveille says Sheriff Harper returned last Monday morning from a trip to Ione, Grantsville and that portion of Nye county. He says Grantsville is lively, but the roughest camp this side of the Union Pacific Railroad; that it is crowded with tramps, roughs, scab-fighters, thieves and scoundrels, who make day disorderly and night hideous. He thinks the place will pan out a big ledge of criminal business for the Nye county courts.

TEN BROECK AND MOLLIE MCCARTHY.—All doubts as to the condition of Ten Broeck have been set at rest by his work last week, when, with full weight up, he ran three miles in 5:36, finishing the last two miles in 3:34½, with his shoes on. He was breezed again Saturday morning, and fully sustained his former high rate of speed and form. The mare is looking as pretty as a picture, and ran her two miles in 3:35.

FRUIT IN CARSON VALLEY.—The fruit crop of Carson Valley will be exceptionally abundant this year. The orchards are burdened with fruit so far advanced as to preclude the possibility of being destroyed by frost. Cherries, plums, pears, apples, and the smaller fruits of Carson Valley yearly go from one extreme to the other—it is either an abundance or starvation—but this will be a year of plenty.

THE Reveille says Anderson's picture would not be allowed in the Sazerac Lying Club room, nor would that individual be admitted to membership in the Club. The Sazerac Lying Club is composed of gentlemen and consistent liars, and scrub liars like Anderson are barred.

STAGE CHANGE.—Now Clugage's Austin and Belmont stage runs but twice a week, leaving Austin and Belmont respectively on Mondays and Thursdays, through the same day. The route is from Austin via Hot Springs, across to Jefferson, thence to Belmont.

IN case Lincoln is allowed an extra representative in the Republican State Convention, White Pine will put in a claim for nine delegates instead of six. The Ward Reflex thinks the claim will be a fair one, and so do we.

NEVADA RAILWAY.—The Battle Mountain Messenger says S. H. Dolan, Division Engineer, has left for San Francisco to interview contractors who propose to construct and equip the whole line to Austin.

A CALL is issued by the Chairman of the White Pine Republican County Central Committee, convening that body at Hamilton on the 6th of July. The News says this is the opening of the campaign in that county.

LATEST NEWS ITEMS.

The Humboldt river, at Battle Mountain, is overflowing its banks.

A Carson Valley youngster has been christened David Kit Carson Nevada N.

Winnemucca, Wells and Tuscarora have been added to the list of money order offices in Nevada.

The rumors of Indian troubles in Surprise Valley and the vicinity of Fort Bidwell are entirely without foundation.

The Nevada Bank is loaning \$10 per share on California and \$8 per share on Consolidated Virginia, to brokers only.

A stock broker has just committed suicide in New York. In San Francisco it's the fellows who deal with the stock brokers that shuffle off.

It is thought by Mr. Sapiro's intimate friends that the Fourth of July will be selected as the occasion for making the connection with the Savage mine.

The editor of the Elko Post looks forward to the time when the Forty-niners will all be dead and gone, "and then we of later date can step to the front as 'old timers,' sit around, chew tobacco and relate wonderful stories of the 'early days.'"

The annual wheat circular of Isaac Friedlander, of California, estimates the surplus for export will not exceed 600,000 tons, and anticipates a low range of prices, unless something should occur to diminish the crop in the Atlantic States and Europe.

The President has given a new construction to his civil service order, and will not object to the participation of federal office holders in State and Congressional political committees, or to their attending conventions as delegates. This is directly contrary to his position regarding the case of A. B. Cornell.

The International Monetary Conference will probably be held at Paris on the 10th of August, though the place and date are not definitely settled. The Commissioners appointed on behalf of the United States, namely Fenton, Groesbeck and Walker, have accepted the position tendered. Fenton and Walker have hitherto favored the single standard.

BIG STRIKE AT TUSCARORA.

The Elko Independent of Saturday reports the annexed:

From parties just in from Tuscarora, we learn of an important strike made in the Revenue mine, situated near the Independence mill. From information received here, it appears that the value of the mine was known only to one of the owners, who having secured the interests of those associated with him in its possession, at a nominal figure, he has departed for the Bay City where he proposes to incorporate the property at once. The ore body where struck is said to be large, and very rich; sulphurets in character, having been encountered in a drift from the main incline in the blue formation over a hundred feet below the surface.

Rich strikes in our sister camps are always a source of an alloyed pleasure to the dwellers on the lower levels, and that the reports regarding this one have in nowise been exaggerated, is devoutly to be hoped.

WARMLY RECEIVED.—The Silver State says: J. H. Kinkaid, of Unionville, who is a candidate for Governor on the Republican ticket, we notice by our exchanges, has been visiting the western part of the State, and has met with a warm reception and received complimentary notices in every town which he has visited. Though differing from Mr. Kinkaid politically, as a Humboldt, we are pleased to see that his prospects for securing the nomination are of the most favorable character.

NEVADA STATE FAIR.—The programme of the above society appears in our advertising columns this week, but it came too late for us to do more than give this brief notice. It is on the same liberal scale which marks all the transactions of this society, and will give universal satisfaction. We will write of it fully hereafter.—*Spirit of the Times.*
